Syndicat Professionnel des Tisserands de Bretagne
<https://tisseranddebretagne.wordpress.com/>

LE SYNDICAT PROFESSIONNEL DES TISSERANDS DE BRETAGNE HAS WAS BORN IN 1978 TO PROMOTE PROFESSIONAL HAND WEAVING IN BRITTANY.

In the 80s, there were up to 85 adherent weavers.

Currently, we are about ten professional weavers in Brittany and about sixty for all France. Each weaver makes original, quality fabrics, which he shapes with his particular touch. In addition to its usual production, think that it can create tailor-made for you and your home. Everyone can advise you and beautify your daily life.

All are passionate and want to share this passion. For this, they organize exhibitions, animations, demonstrations and offer training.

Patrick Le Calvé

On his shaft loom Patrick weaves what he designed. Precursor, he uses the computer resource that allows him for a long time to realize his threads dreams. When the "fabric" is woven, Katy creates shapes, lines and sews often incorporating other textiles. They present us a very couture collection, constantly renewed, cheerful and always up to date.
